

# MEMaker

Make your museum visit memorable

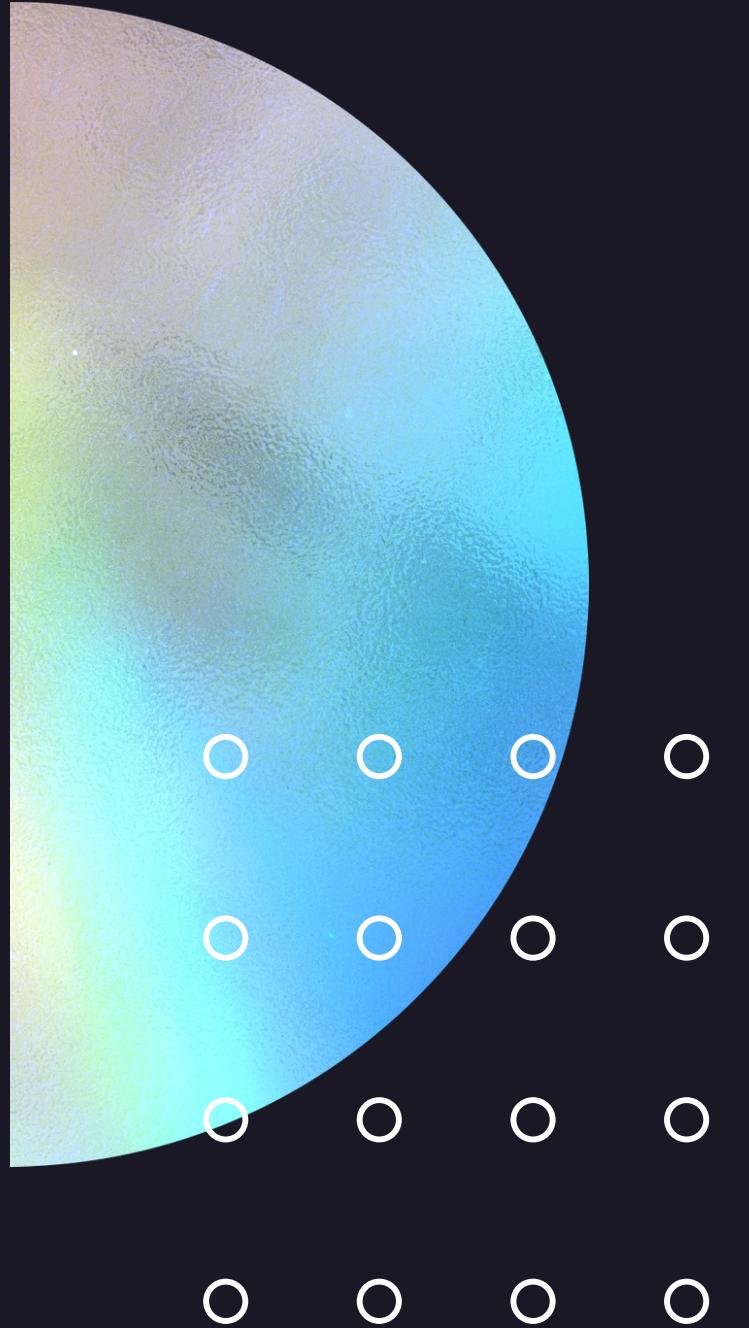

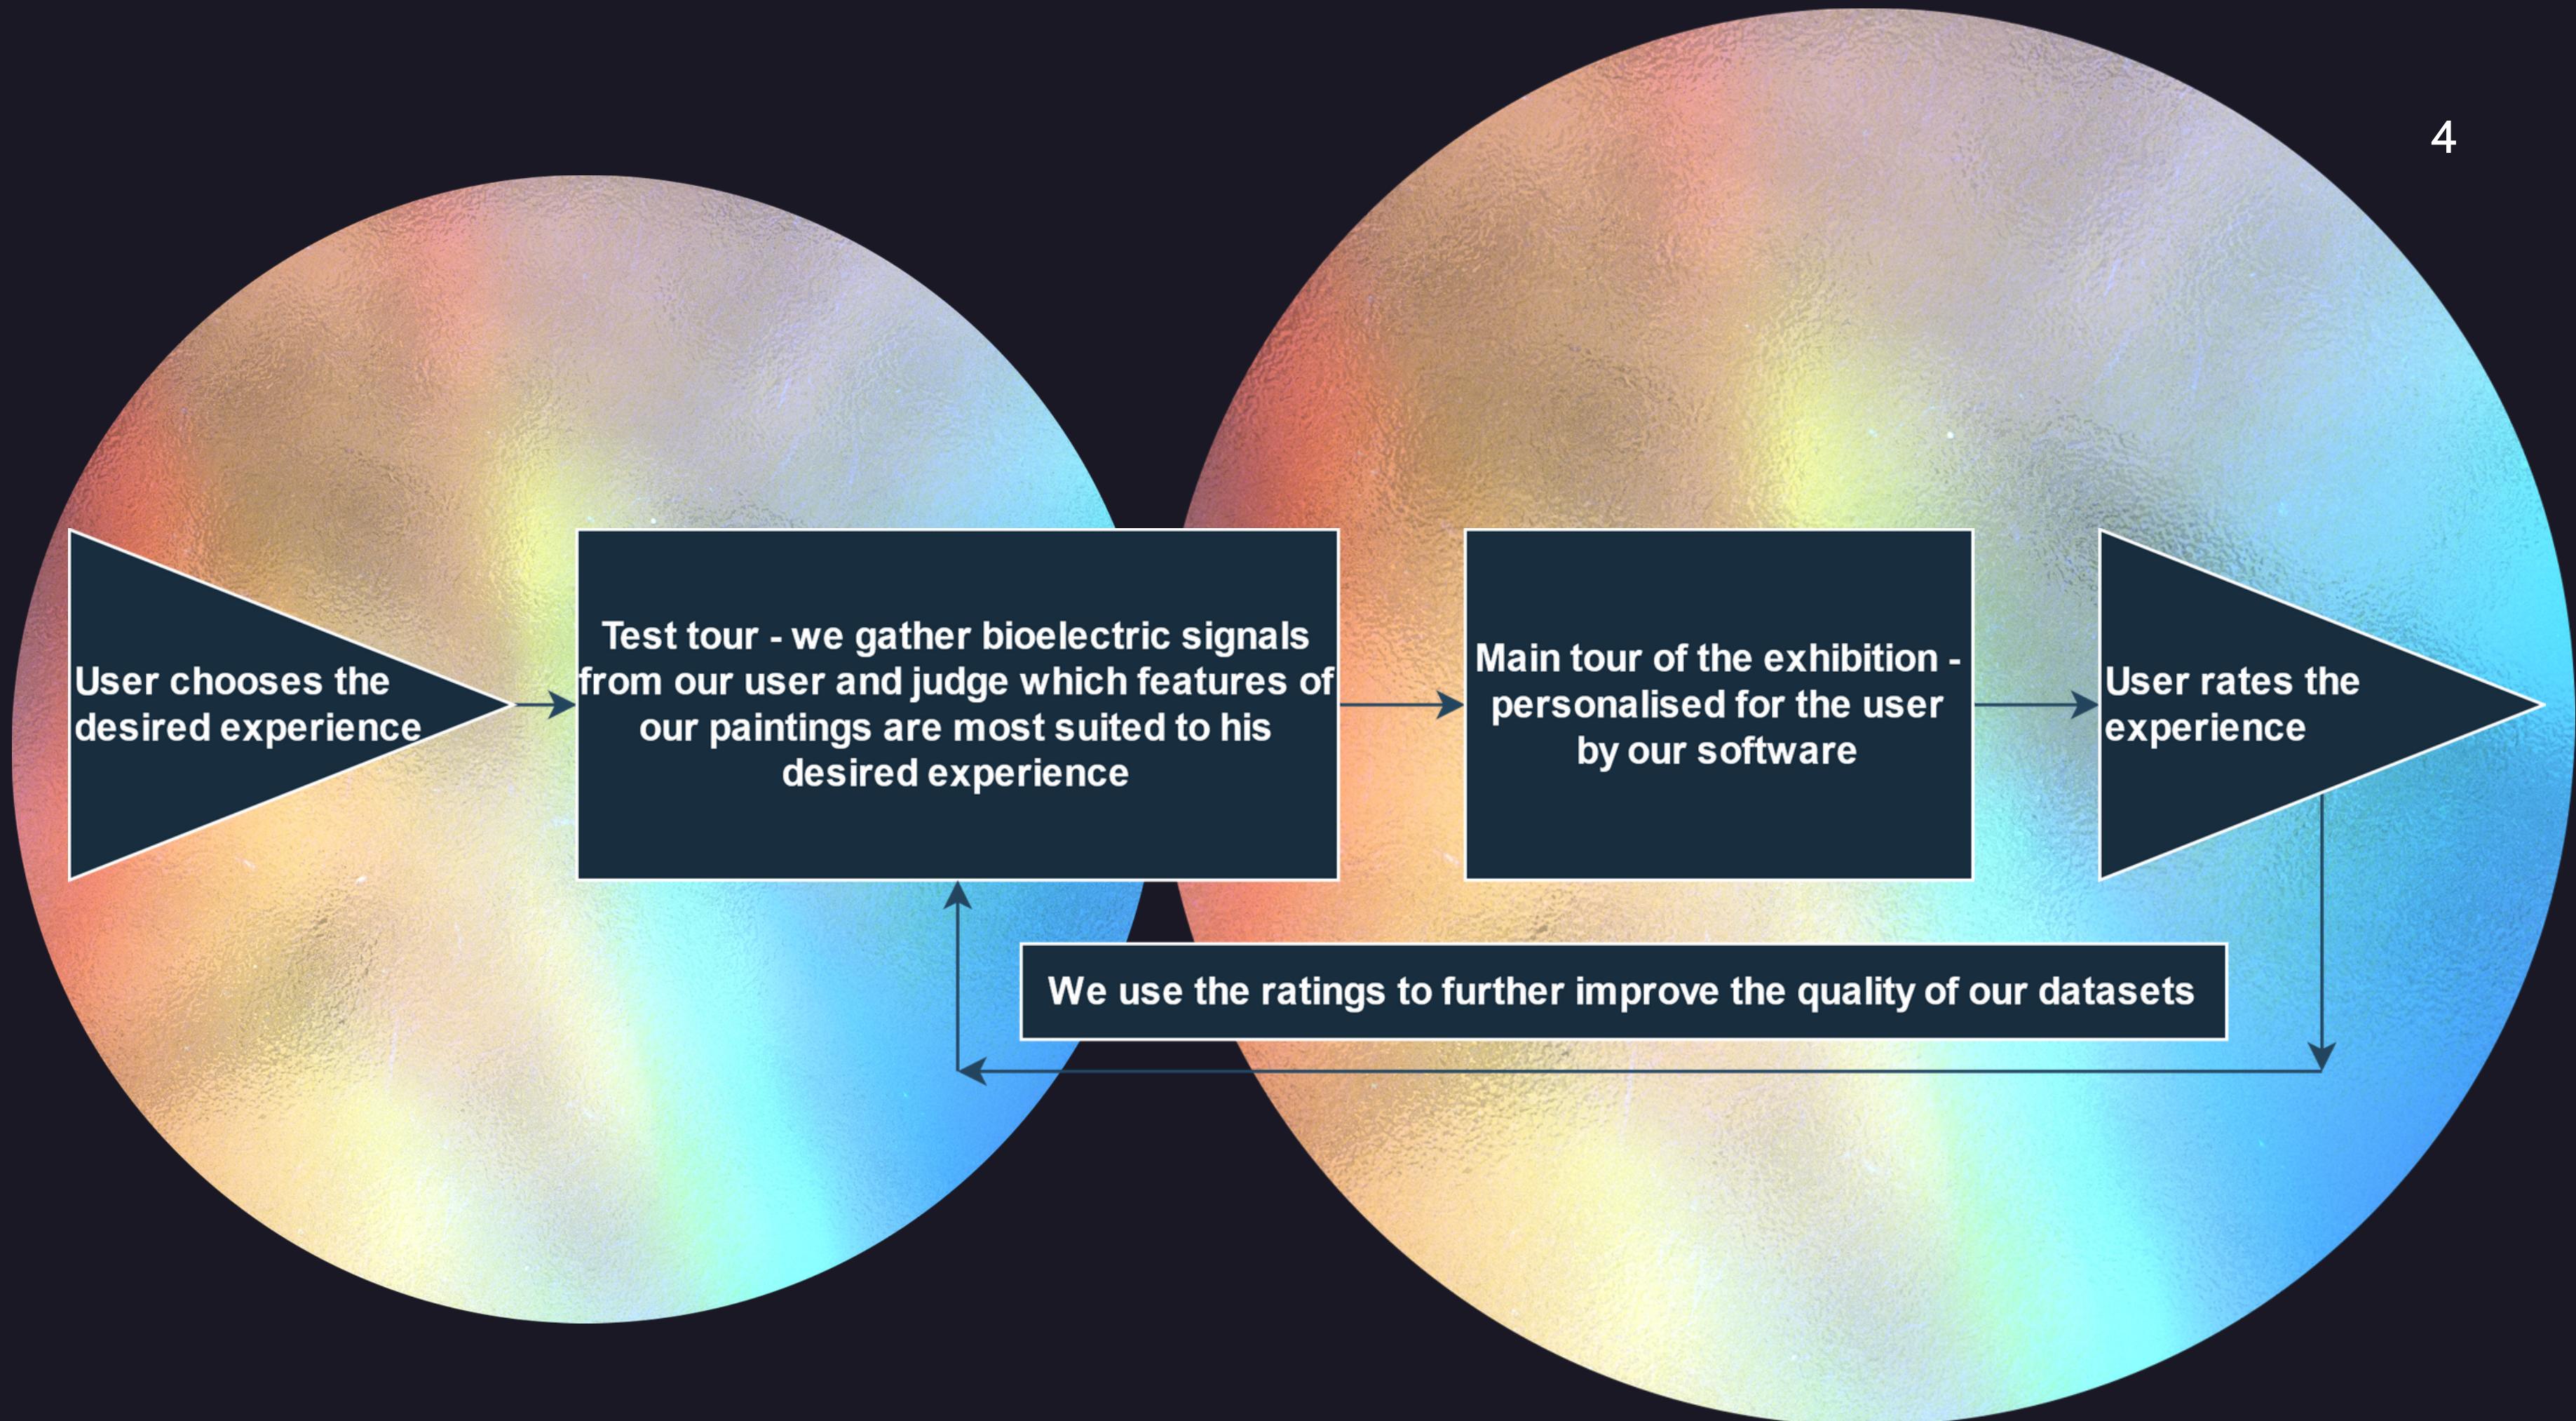

# MEMaker - Museum Experience Maker

**After leaving an exhibition which was supposed to be inspiring we tend to remember only a few masterpieces which drew our attention the most. What if there was a way to enhance this experience?**

# How does it work?

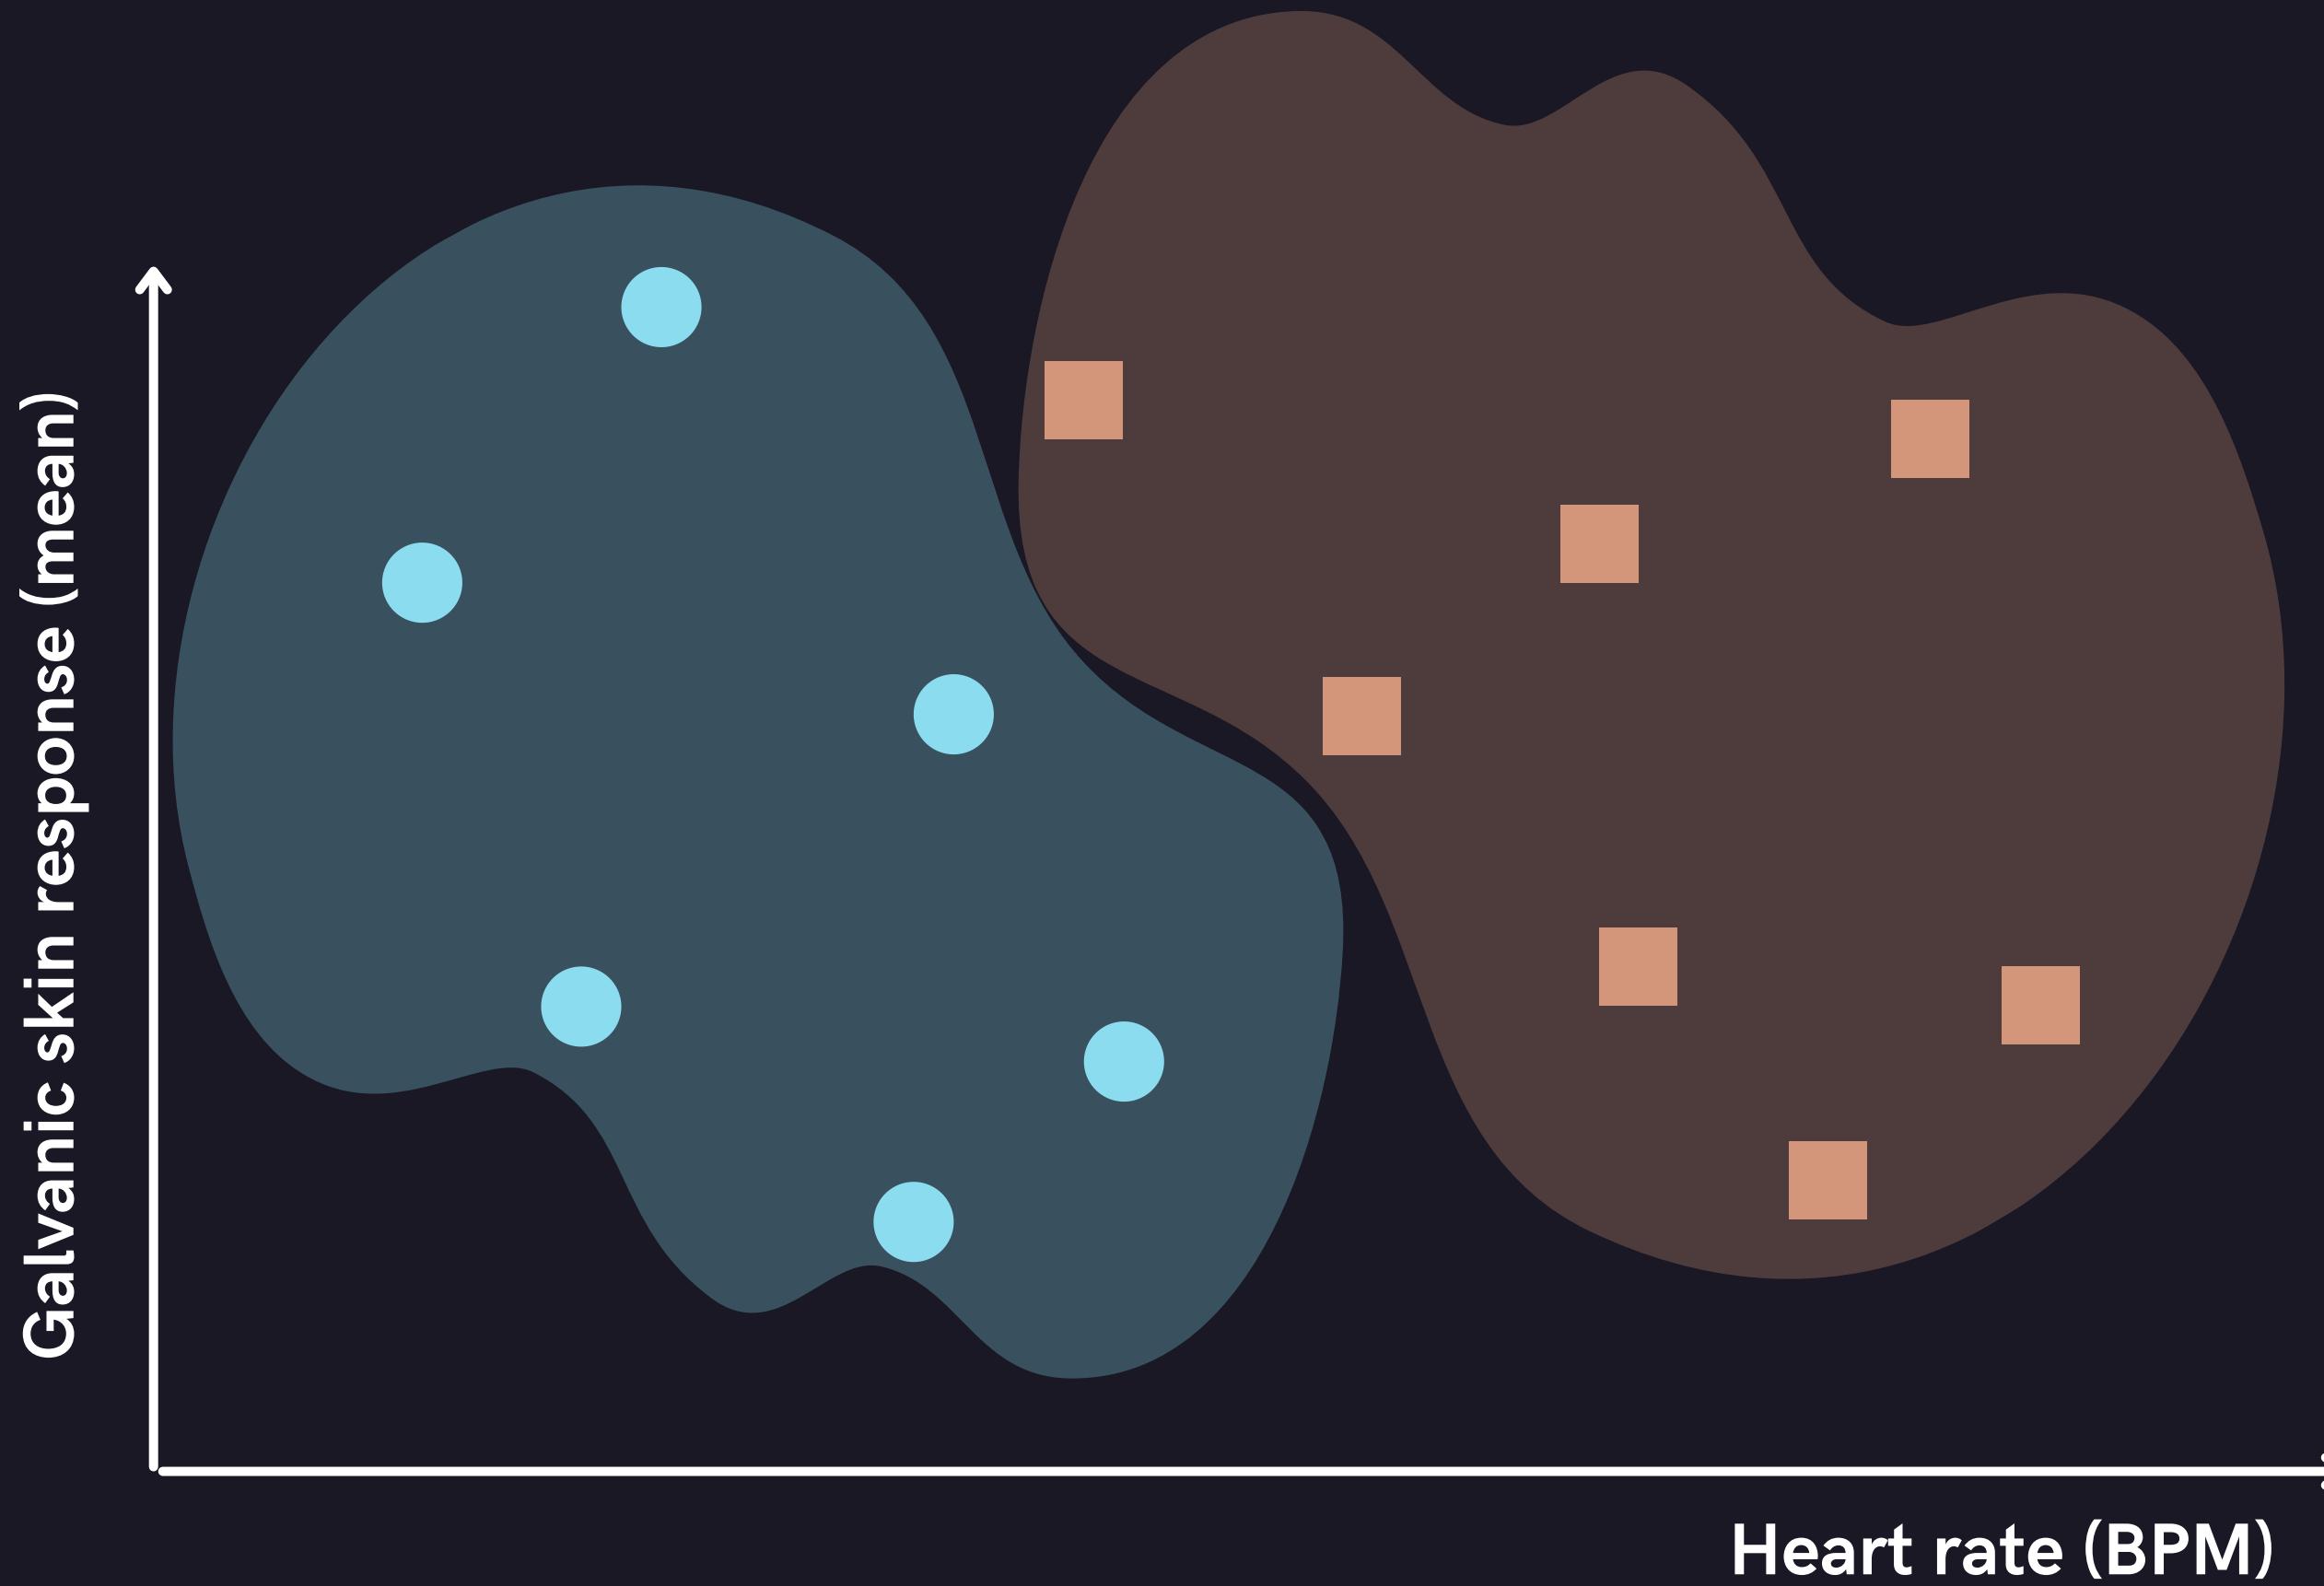

- Choose preferred experience
- Go through calibration process
- Enjoy the personalized exhibition

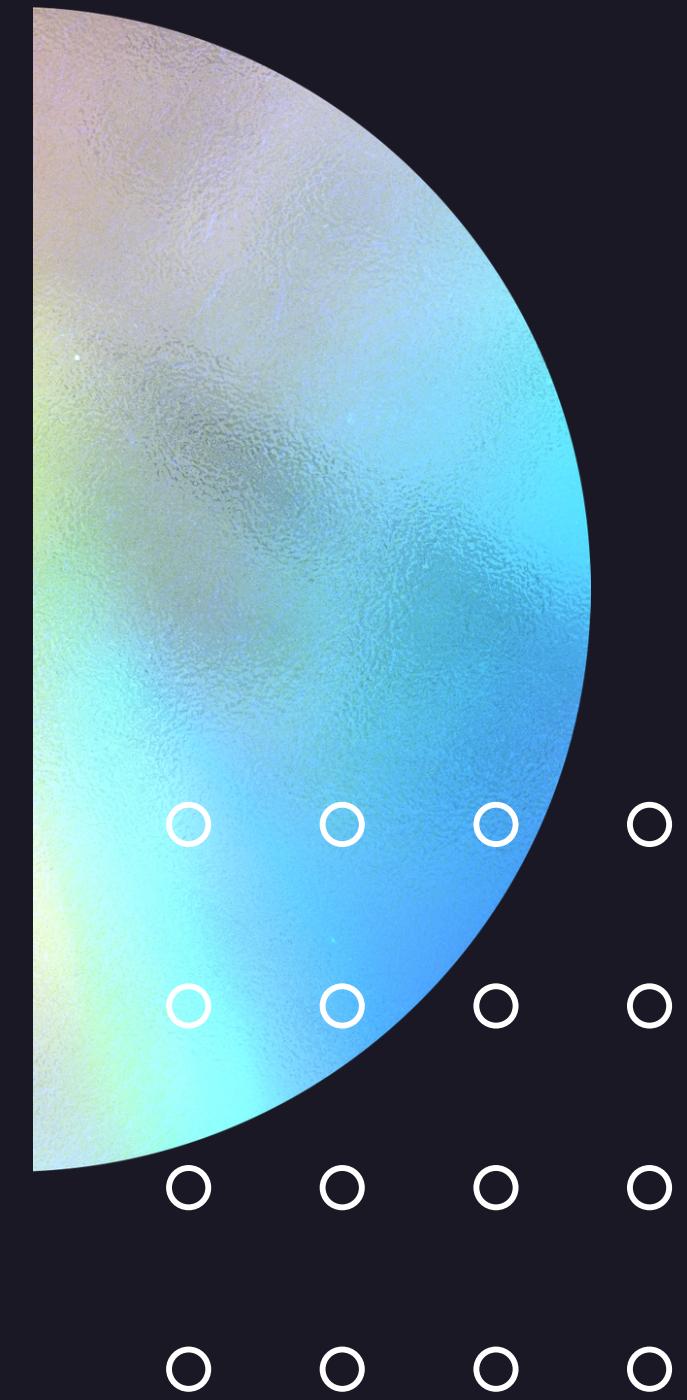

# K-nearest neighbors algorithm

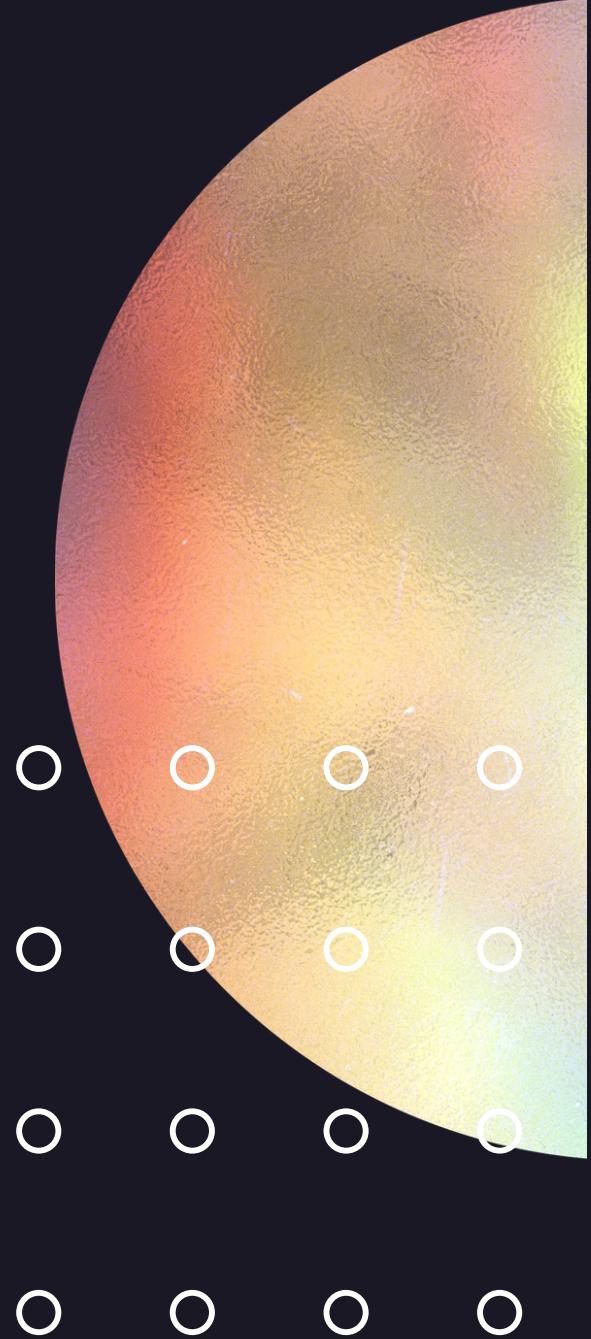

5

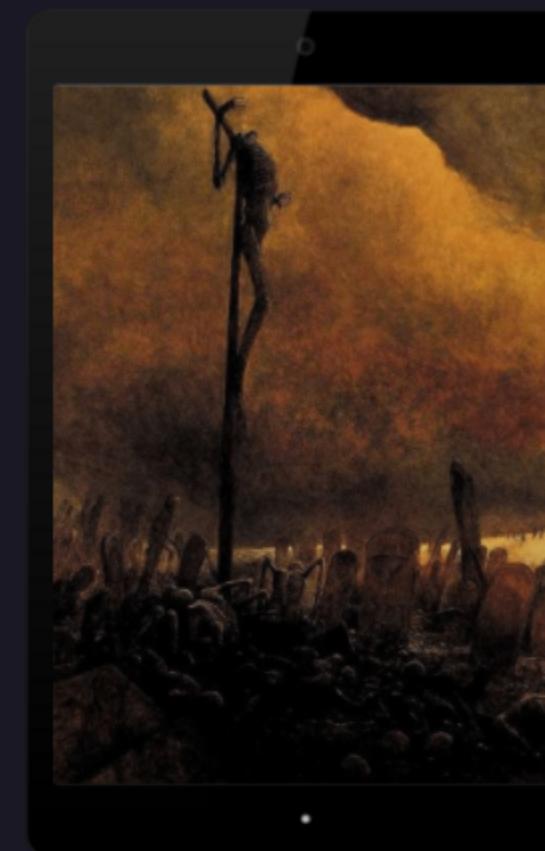

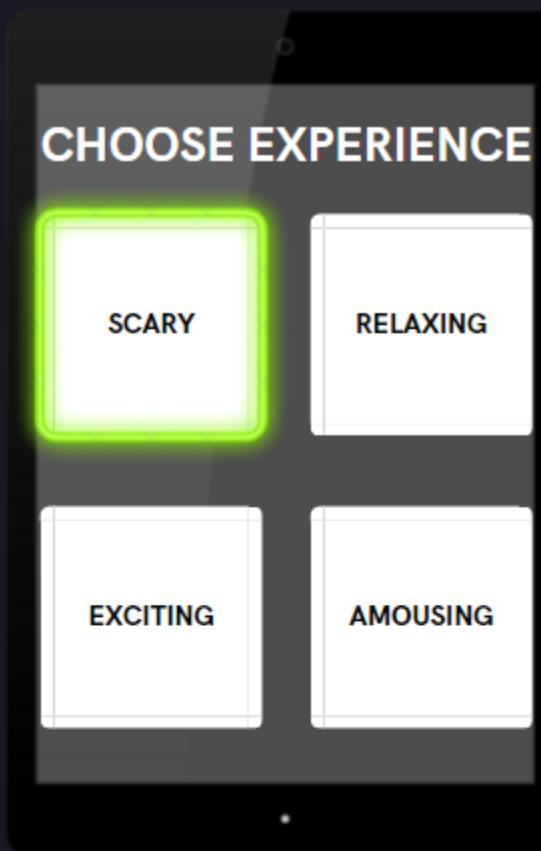

# Future perspectives

- In the future we want to add another senses to the exhibition. We can manipulate every sense for every painting to make the best possible stimulation.

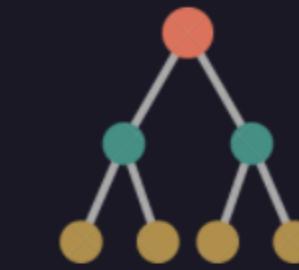

- Inspiring adventure for everyone - we will try our best to provide you with the most unusual experience, but we will also take care of your safety and comfort.
- Thanks to the fact that all of the pieces of art are displayed on the screen, we can come up with solutions so there will be no problem in viewing for disabled people.
